Ali Arda Akkız
Electrical & Electronics Engineer

Although I graduated from the electrical & electronics engineering department which I have specialized in control engineering, I also developed myself in the fields of software engineering and machine learning. Moreover, I would like to state that I am extremely devoted and enthusiastic about being effective and fast in business life, and I want to take the responsibility required by the position with curiosity and desire. I am aware that willingness, meticulous and careful work will surely result in success. Therefore, I have no doubt that I can contribute to you with my skills and working discipline.

Experience

January 2022 - February 2022
Entes Elektronik | Dudullu Osb/Ümraniye/İstanbul
Embedded Software Engineering Intern

Embedded Software Engineering Role on ARM Cortex-M processors with the aid of MPLAB X IDE environment and the program Atmel MCU. Implementation of Ethernet and TCP using Microchip tools and lwIP stack MQTT.

August 2021 - November 2021
Sigorta Bilgi ve Gözetim Merkezi | Kadıköy/İstanbul
Cyber Security Specialist

Cyber security internship followed by a short period of part-time work at SBM, one of the major data-driven companies with unique enterprise architecture. I have participated in soft skill trainings including effective teamwork and transitioning into business life as well as technical skill trainings including Microsoft Excel and SQL. Moreover, I have established a strong foundation in cyber security including web application security and penetration testing with Kali Linux
